

Full Service Design

Full service design is the perfect fit for a couple that wants the pressure of coordinating their décor taken off their plate. There are plenty of details for you to take care of when planning your wedding. We take care of everything related to design from start to finish for full service clients. Because we only accept one full service design client each week, you will have our complete attention.

Full service event design includes two in-person consultations, creation and/or purchase of all design pieces as well as coordination of rental items if interested, delivery, installation, and clean up. A minimum of \$2500 is for events within a one hour radius of Evansville. Events a further distance from Evansville may require a higher minimum spend.

A La Carte Design

We understand that every event is different and sometimes you don't need for us to handle all the details. Maybe you are eloping? Having a small ceremony and just need bouquets and boutonnieres? A la carte service is most likely the service that you need.

A la carte design is for events falling under our \$2500 full service minimum and is available for pick up. Delivery is available for an additional fee. Installation and clean up is not available for this service.
